For the quarterly period ended September 30, 2026

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____
Commission file number 001-41109

INTENSITY THERAPEUTICS, INC.
(Exact name of registrant as specified in its charter)

Delaware	**46-1488089**
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)
1 Enterprise Drive, Suite 430, Shelton, CT	**06484-4779**
(Address of Principal Executive Offices)	(Zip Code)

(203) 221-7381

Registrant's telephone number, including area code

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol	Name of Each Exchange on Which Registered
Common Stock, $0.0001 par value	INTS	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☐	Accelerated filer	☐
Non-accelerated filer	☒	Smaller reporting company	☒
		Emerging growth company	☒

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes ☐ No ☒

As of November 4, 2026, the registrant had 3,301,175 shares of common stock outstanding.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements that involve substantial risks and uncertainties. All statements, other than statements of historical facts, contained in this report, including statements regarding our strategy, future operations, future financial position, future revenue, projected costs, prospects, plans, and objectives of management and expected market growth are forward-looking statements. These statements involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

The words "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "predict," "will," "project," "would" and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. These forward-looking statements include, among other things, statements about:

- the initiation, timing, progress and results of future preclinical studies and clinical trials, and our research and development programs;
- our need to raise additional funding to complete our clinical trials and before we can expect to generate any revenues from product sales;
- our plans to develop and commercialize our product candidates;
- the timing or likelihood of regulatory filings and approvals;
- the ability of our research to generate and advance additional product candidates;
- the implementation of our business model, strategic plans for our business, product candidates and technology;
- our commercialization, marketing and manufacturing capabilities and strategy;
- the rate and degree of market acceptance and clinical utility of our system;
- our competitive position;
- our intellectual property position;
- developments and projections relating to our competitors and our industry;
- our ability to maintain and establish collaborations or obtain additional funding;
- our expectations related to the use of our cash and cash equivalents and investments;
- our estimates regarding expenses, future revenue, capital requirements and needs for additional financing;
- our ability to remain listed on The Nasdaq Capital Market; and
- other factors discussed herein and under the heading "Risk Factors" in our Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (the "SEC") on March 27, 2026 (the "2025 Annual Report"), and this Quarterly Report on Form 10-Q.

In light of these assumptions, risks and uncertainties, the results and events discussed in the forward-looking statements contained in this Quarterly Report on Form 10-Q, or in any document incorporated by reference, might not occur. Stockholders are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date of this Quarterly Report on Form 10-Q. We are not under any obligation, and we expressly disclaim any obligation, to update or alter any forward-looking statements, whether as a result of new information, future events or otherwise except as required by law. All forward-looking statements in this Quarterly Report on Form 10-Q attributable to us or to any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section.

Unless otherwise indicated, the terms "Intensity," "Company," "we," "us," or "our" refer to Intensity Therapeutics, Inc.

INTENSITY THERAPEUTICS, INC.
NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

Note 1. Description of Business

Intensity Therapeutics, Inc. (the "Company") is a biotechnology company whose treatment approach addresses both the regional and systemic nature of a patient's cancer. The Company's DfuseRx[SM] technology platform has identified a lead drug, INT230-6. The Company is based in Connecticut and was incorporated in Delaware in December 2012.

On February 19, 2026, the Company effected a 1-for-25 reverse stock split (the "Reverse Stock Split"). Every 25 shares of the Company's issued and outstanding shares of the Company's common stock were automatically converted into one share of the Company's common stock. All fractional shares created by the Reverse Stock Split were paid in cash. The Reverse Stock Split had no impact on the par value per share of the Company's common stock which remains at $0.0001. All holders of options and warrants had the exercise price multiplied by 25 and the number of shares issuable upon exercise divided by 25. All current and prior period amounts related to shares, share prices and loss per share, presented in the Company's financial statements and the accompanying notes have been restated for the Reverse Stock Split.

Note 2. Liquidity and Plan of Operation

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP"), which contemplate continuation of the Company as a going concern.

The Company is a research and development company and has not generated any revenue from its product candidates. The Company has experienced net losses and negative cash flows from operations each year since its inception. Through September 30, 2026, the Company has an accumulated deficit of $87.4 million. The Company's operations have been financed primarily through the sale of equity securities and convertible notes. The Company's net loss for the nine months ended September 30, 2026 was $9.0 million. The Company expects to incur significant expenses to complete development of its product candidates. The Company may never be able to obtain regulatory approval for the marketing of any of its product candidates in the United States or internationally and there can be no assurance that the Company will generate revenues or ever achieve profitability. The Company does not expect to receive significant product revenue in the near term. The Company, therefore, expects to continue to incur substantial losses for the foreseeable future.

Cash and cash equivalents totaled $8.5 million as of September 30, 2026. Until such time the Company can generate substantial product revenue, the Company plans to finance its operations through a combination of equity offerings and convertible debt financings. The Company does not have any committed external source of funds. To the extent that the Company can raise additional capital through the sale of equity or convertible debt securities, the ownership interest of the Company stockholders may be diluted, and the terms of these securities may include liquidation or other preferences that adversely affect the rights of the common stockholders. If the Company is unable to raise additional funds through equity or debt financings when needed, the Company may be required to delay, limit, reduce or terminate its research and product development.

Based on the cash and cash equivalents as of September 30, 2026, the Company's ability to continue its operations thereafter is dependent on obtaining additional capital, which is not within the Company's control. As a result, the Company believes there is substantial doubt about its ability to continue as a going concern.

Note 3. Basis of Presentation and Summary of Significant Accounting Policies

Basis of presentation

The interim condensed financial statements included herein are unaudited. In the opinion of management, these statements include all adjustments, consisting only of normal, recurring adjustments, necessary for a fair presentation of the financial position of the Company at September 30, 2026, and its results of operations and its cash flows for the three and nine months ended September 30, 2026 and 2025. The interim results of operations are not necessarily indicative of the results to be expected for a full year. These interim unaudited financial statements should be read in conjunction with the audited financial statements for the years ended December 31, 2025 and 2024 and notes thereto. The accompanying financial statements have been prepared in accordance with GAAP and reflect the operations of the Company. Certain information and note disclosures normally included in financial statements prepared in accordance with GAAP have been omitted pursuant to such rules and regulations of the Securities and Exchange Commission relating to interim financial

statements. The December 31, 2025 balance sheet information was derived from the audited financial statements as of that date. The Company neither owns nor controls any subsidiary companies.

The significant accounting policies used in preparation of the condensed financial statements are disclosed in our 2025 Annual Report, and there have been no changes to the Company's significant accounting policies during the nine months ended September 30, 2026.

Stock-based compensation

The Company accounts for stock-based compensation to employees and non-employees, which consists of stock option grants, through the Statements of Operations based on their fair values at the date of grant.

The Company calculates the fair value of option grants utilizing the Black-Scholes pricing model. The resulting stock-based compensation expense for both employee and non-employee awards is generally recognized on a straight-line basis over the requisite service period of the award. Forfeitures are recognized as they occur.

Because the Company has limited trading history, it estimated its expected share price volatility based on the historical volatility of publicly traded peer companies and expects to continue to do so until such time as it has adequate historical data regarding the volatility of its own traded share price.

Research and development costs

The Company is required to estimate its expenses resulting from its obligations under contracts with vendors, consultants, contract research organizations (“CRO”), and contract manufacturing organizations (“CMO”) in connection with conducting research and development activities. The financial terms of these contracts vary from contract to contract and may result in payment flows that do not match the periods over which materials or services are provided under such contracts.

Research and development costs are expensed in the period in which they are incurred. External costs consist primarily of payments to outside consultants, third-party CROs, CMOs, clinical trial sites and central laboratories in connection with the Company’s clinical manufacturing and clinical development activities. External expenses are recognized based on an evaluation of the progress to completion of specific tasks using information provided to the Company by its service providers or its estimate of the level of service that has been performed at each reporting date. The Company tracks external costs based on research and development initiatives, including preclinical, individual clinical study, and manufacturing for our product candidate. Internal costs consist primarily of employee-related costs and costs related to compliance with regulatory requirements. The Company does not track internal or consulting costs by research and development initiative because these costs are deployed across multiple programs and, as such, are not separately classified.

The Company makes estimates of accrued expenses as of each balance sheet date based on facts and circumstances known at that time. The Company periodically confirms the accuracy of its estimates with the service providers and makes adjustments if necessary. The significant estimates in its accrued research and development expenses include the costs incurred for services performed by vendors in connection with research and development activities for which the Company has not yet been invoiced.

In July 2024, the Company initiated a Phase 3 open-label, randomized study for certain soft tissue sarcoma subtypes, which is expected to span several years. In connection with this study, the Company recorded an advance payment of $1.7 million in December 2023 to a CRO (“Initial CRO”), which was to be applied to future invoices during and at the end of the study. As of December 31, 2025, the advance payment balance was $1.2 million, and was recorded in Other Assets in the Balance Sheet. In May 2026, the Company issued a termination notice to the Initial CRO, and initiated transition efforts. As of September 30, 2026, all transition-related activities were completed and the remaining advance payment balance was applied to unpaid invoices through the transition date resulting in a net balance due of $41,278 to the Company, which is recorded in prepaid expenses and other current assets in the balance sheet. During the third quarter of 2026, the Company recorded an advance payment of $0.5 million to a new CRO (“New CRO”), which will be applied to future invoices during and at the end of the study. As of September 30, 2026, advance payment to the New CRO was recorded in other assets in the balance sheet.

Basic and dilutive loss per share

Basic net loss per share is determined using the weighted average number of shares of common stock outstanding during each period. Dilutive net loss per share includes the effect, if any, from the potential exercise or conversion of

securities, such as stock options and stock warrants, which would result in the issuance of incremental shares of common stock. The computation of diluted net loss per share does not include the conversion of securities that would have an anti-dilutive effect. Potential shares of common stock issuable upon the exercise of stock options and warrants are excluded from the computation of diluted weighted average shares outstanding listed in the table below because, when the Company is in a net loss position, they are anti-dilutive. There were no preferred shares outstanding at September 30, 2026 and 2025.

As of September 30, 2026 and 2025, the following shares of common stock underlying options and warrants were excluded from the computation of diluted weighted average shares outstanding:

	September 30,	
	2026	2025
Options outstanding	332,428	160,432
Warrants outstanding	333,108	343,732
	665,536	504,164

Recently issued pronouncements

In November 2024, the FASB issued ASU 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*, as subsequently amended by ASU 2025-01 to clarify the effective date, which is intended to provide more detailed information about specified categories of expenses (purchases of inventory, employee compensation, depreciation and amortization) included in certain expense captions presented in the statement of operations. The guidance in this ASU is effective for annual reporting periods in fiscal years beginning after December 15, 2026, and interim periods in fiscal years beginning after December 15, 2027. Early adoption is permitted. The amendments may be applied either (1) prospectively to financial statements issued for periods after the effective date of this ASU or (2) retrospectively to all prior periods presented in the financial statements. The Company is currently evaluating the impact that the adoption of ASU 2024-03 will have on its financial statement disclosures.

Note 4. Cash and Cash Equivalents

Cash and cash equivalents consisted of the following (in thousands):

	September 30, 2026	December 31, 2025
Savings and checking accounts at major U.S. financial institutions	$ 22	$ 86

Accrued other	176	98
Total	$ 897	$ 1,532

Note 7. Stockholders' Equity

At The Market Offering Agreement

On July 3, 2024, the Company entered into an At The Market Offering Agreement (the "Sales Agreement") with H.C. Wainwright & Co., LLC ("Wainwright"), pursuant to which the Company may sell and issue, from time to time, up to $15.0 million of shares of its common stock (the "Shares") through Wainwright as the Company's sales agent. The Company has no obligation to sell any of the Shares and may at any time suspend offers under the Sales Agreement or terminate the Sales Agreement pursuant to its terms.

On March 23, 2026, the Company filed a prospectus supplement to adjust the maximum the Company may sell and issue under the Sales Agreement to $60.0 million of its Shares ("ATM Adjustment"), not including the Shares previously sold under the Sales Agreement.

Since inception of the Sales Agreement through September 30, 2026, the Company has issued2,009,329 shares of common stock under the Sales Agreement for net proceeds of $14.5 million, of which $3.1 million occurred subsequent to the ATM Adjustment date. For the nine months ended September 30, 2026, the Company issued 727,828 shares of common stock under the Sales Agreement for net proceeds of $3.2 million. As of September 30, 2026, the Company may issue and sell up to $56.9 million of Shares remaining under the Sales Agreement.

April 2025 Public Offering

On April 24, 2025, the Company commenced a best efforts public offering (the "April 2025 Offering") of an aggregate of (i)125,333 shares (the "Shares") of the Company's common stock, (ii) 125,333 Series B-1 Common Warrants (the "Series B-1 Common Warrants") to purchase up to 125,333 shares of common stock (the "Series B-1 Common Warrant Shares"), and (iii) 125,333 Series B-2 Common Warrants (the "Series B-2 Common Warrants" and together with the Series B-1 Common Warrants, the "Warrants") to purchase up to 125,333 shares of common stock (the "Series B-2 Common Warrant Shares" and together with the Series B-1 Common Warrant Shares, the "Warrant Shares"). In connection with the April 2025 Offering, the Company entered into a Securities Purchase Agreement on April 24, 2025 with certain institutional investors participating in the April 2025 Offering. The April 2025 Offering closed on April 28, 2025. Each Share was sold together with one Series B-1 Common Warrant to purchase one share of common stock andone Series B-2 Common Warrant to purchase one share of common stock. The combined offering price for each Share and accompanying Warrants was $18.75. Each Warrant has an exercise price of $21.25 and was immediately exercisable upon issuance. The Series B-1 Common Warrants will expire on thefive-year anniversary of the date of issuance, and the Series B-2 Common Warrants expired in October 2026. The Company raised an aggregate of $2.35 million in the April 2025 Offering, and net proceeds of the April 2025 Offering, after deducting the fees and expenses were approximately $1.9 million.

June 2025 Public Offering

On June 11, 2025, the Company entered into an underwriting agreement (the "Underwriting Agreement") by and between the Company and ThinkEquity LLC (the "Underwriter") relating to the issuance and sale of an aggregate of 267,000 shares (the "Firm Shares") of the Company's common stock, to the Underwriter at a price to the public of $7.50 per share (the "June 2025 Offering"). Pursuant to the terms of the Underwriting Agreement, the Company granted to the Underwriter a45-day option to purchase up to an additional 40,050 shares of common stock in the June 2025 Offering (the "Option Shares" and together with the Firm Shares, the "Shares"). The Underwriter exercised its option in full to purchase the 40,050 Option Shares at the public offering price on June 12, 2025. The June 2025 Offering, including the exercise of the Underwriter's over-allotment option, closed on June 13, 2025. All of the Shares were sold by the Company. Pursuant to the Underwriting Agreement, the Company also agreed to issue to the Underwriter and/or its designees warrants to purchase up to 15,352 shares of common stock (the "Representative's Warrants"), which equals5% of the Shares

purchased in the June 2025 Offering, such warrants to be exercisable as set forth in the Representative's Warrant Agreement. The net proceeds to the Company from the June 2025 Offering, including the exercise of the Underwriter's over-allotment option, were approximately $1.8 million after deducting the underwriting discounts and commissions and estimated offering expenses payable by the Company.

October 2025 Registered Direct Offering

On October 30, 2025, the Company entered into a Securities Purchase Agreement with an institutional investor (the "Institutional Investor"), pursuant to which the Company agreed to issue and sell, in a registered direct offering by the Company directly to the Institutional Investor, 200,000 shares of common stock to the Institutional Investor, at a price of $20.00 per share, for aggregate gross proceeds of approximately $4.0 million (the "October 2025 Offering"). The net proceeds from the October 2025 Offering, after deducting the placement agent's fees and related offering expenses, were approximately $3.6 million.

Note 8. Stock Based Compensation

The Company has a 2013 Stock Option Plan (the "2013 Plan"), which is administered by the Compensation Committee. Under the 2013 Plan, stock options to purchase shares of common stock could be granted to eligible employees, officers, directors and consultants of the Company.

In 2021, the Company replaced the 2013 Plan with the 2021 Stock Incentive Plan (the "2021 Plan"), authorizing the granting of equity awards for the issuance of up to 120,000 shares of common stock. Upon adoption of the 2021 Plan,no more shares would be issued under the 2013 Plan. Starting on January 1, 2022, the shares authorized under the 2021 Plan shall have an annual increase of the lesser of (a) 3.5% of the aggregate number of shares of common stock outstanding on the final day of the preceding calendar year, or (b) such smaller amount as determined by the Board. On January 1 of 2023, 2024, 2025 and 2026, an additional 9,548, 19,193, 21,172 and 88,357 shares, respectively, were authorized under the 2021 Plan. On June 16, 2026, the Company's stockholders approved an amendment to the 2021 Plan to increase the number of shares of common stock available for sale under the Plan by 150,000. As of September 30, 2026, 62,899 shares were available for issuance under the 2021 Plan.

The Company recorded total stock-based compensation for its outstanding stock options and warrants in its Statements of Operations as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2026	2025	2026	2025
Research and development	$ 226	$ 182	$ 525	$ 606
General and administrative	291	289	766	944
Total stock-based compensation expense	$ 517	$ 471	$ 1,291	$ 1,550

In April 2026, the Company's CEO was issued 37,749 shares of fully vested common stock under the 2021 Plan in partial satisfaction of his 2025 bonus payment in lieu of cash. The common shares were issued at $6.11 per share for a total value of $0.2 million.

Stock options

The following table summarizes the range of assumptions used to estimate the fair value of stock options issued using the Black-Scholes-Merton option pricing model:

	Nine Months Ended September 30,	
	2026	2025
Stock price	$4.90	$14.25
Exercise price	$4.90	$14.25
Expected volatility	97.77% to 97.97%	106.81% to 107.94%
Risk free interest rates	4.38% to 4.41%	4.11% to 4.62%
Expected term (years)	6.5 to 7	6.5 to 7

For the nine months ended September 30, 2026 and 2025, a dividend yield of 0% was used because the Company has not historically paid and does not intend to pay a dividend on common stock in the foreseeable future. The expected stock price volatility assumption was estimated based on the historical volatilities for industry peers, as the Company had no active market for its stock prior to the initial public offering ("IPO") and limited history for issuance price of its stock. The risk-free rate assumption is determined using the yield currently available on U.S. Treasury zero coupon issues with a remaining term commensurate with the expected term of the award. The expected term of the option represents the period the options are expected to be outstanding.

The following table summarizes the activity for stock options under the 2013 and 2021 Plans for the nine months ended September 30, 2026:

	Options	Weighted-Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Outstanding at December 31, 2025	160,428	$ 102.46	7.8	$ —
Issued	176,000	$ 4.90		
Exercised	—	$ —		
Forfeited and cancelled	(4,000)	$ 100.00		
Outstanding at September 30, 2026	332,428	$ 50.84	8.6	$ —
Exercisable at September 30, 2026	122,671	$ 105.80	7.3	$ —

All options expire 10 years from date of grant. Options outstanding begin to expire in November 2026. Options that were granted to employees and consultants have vesting periods that vary by award to recipient and range from immediate vesting to a period of up to 4 years.

As of September 30, 2026, total unrecognized compensation cost related to options was approximately $2.2 million and is expected to be recognized over the remaining weighted average service period of 2.1 years.

Warrants

The following table summarizes the range of assumptions used to estimate the fair value of warrants issued using the Black-Scholes-Merton option pricing model:

	Nine Months Ended September 30,	
	2026	2025
Stock price	n/a	$7.50 to $18.75
Exercise price	n/a	$9.50 to $21.25
Expected volatility	n/a	96.30% to 103.83%
Risk free interest rates	n/a	3.87% to 3.91%
Expected term (years)	n/a	1.5 to 5

For the nine months ended September 30, 2025, a dividend yield of 0% was used because the Company has not historically paid and does not intend to pay a dividend on common stock in the foreseeable future. The expected stock price volatility assumption was estimated based on the historical volatilities for industry peers, as the Company had no active market for its stock prior to the IPO and limited history for issuance price of its stock. The risk-free rate assumption is determined using the yield currently available on U.S. Treasury zero coupon issues with a remaining term commensurate with the expected term of the award. The expected term of the warrant represents the period the warrants are expected to be outstanding.

The following table summarizes the activity for warrants for the nine months ended September 30, 2026:

	Warrants	Weighted-Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Outstanding at December 31, 2025	339,298	$ 40.11	3.0	$ 13
Issued	—	$ —		
Exercised	—	$ —		
Forfeited and cancelled	(6,190)	$ 195.99		
Outstanding at September 30, 2026	333,108	$ 37.21	2.2	$ —
Exercisable at September 30, 2026	332,487	$ 37.00	2.2	$ —

All warrants outstanding are for the purchase of the Company's common stock.

As of September 30, 2026, total unrecognized compensation cost related to warrants was approximately $12,000 and is expected to be recognized over the remaining weighted average service period of 1.3 years.

Note 9. Leases

In July 2023, the Company signed a 5.5-year lease for approximately 2,700 square feet of office space in Shelton, Connecticut.

Rent expense for the three and nine months ended September 30, 2026 was approximately $9,000 and $26,000, respectively, and for the three and nine months ended September 30, 2025 was approximately $9,000 and $26,000, respectively. Cash paid for the operating lease for the three and nine months ended September 30, 2026 was approximately $22,000 and $58,000, respectively, and for the three and nine months ended September 30, 2025 was approximately $17,000 and $50,000, respectively.

The following table summarizes the balance sheet classification of the operating lease asset and related lease liabilities as of September 30, 2026 and December 31, 2025 (in thousands):

	September 30, 2026	December 31, 2025
Right-of-use asset, net	$ 75	$ 96
Lease liability, current portion	34	31
Lease liability, net of current portion	53	79
	$ 87	$ 110

The following variables were used to determine the right-of-use asset and the operating lease liabilities at September 30, 2026 and 2025:

	September 30, 2026	September 30, 2025
Weighted average remaining lease term	2.4 years	3.4 years
Weighted average operating lease discount rate	6.4 %	6.4 %

Future minimum lease payments under the lease agreement as of September 30, 2026 were as follows (in thousands):

Year ended		
2026 (remainder of year)	$	10
2027		39
2028		39
2029		7
Total lease payments		95
Less: Amounts representing interest		(8)
Present value of lease liabilities	$	87

Note 10. Other Uncertainties

The Company holds patents in Russia and Israel, both of which are currently involved in military action. The outcomes of these military actions could impact our ability to maintain and protect these patents.

Note 11. Related Parties

In April 2024, the Company entered into a non-material agreement with a service organization controlled by a board member. For the three and nine months ended September 30, 2026, the Company expensed $16,834 and $59,564, and paid $10,470 and $50,529 to the service organization for services performed. For the three and nine months ended September 30, 2025, the Company expensed $15,125 and $49,910, and paid $31,435 and $49,910 to the service organization for services performed. The Company recognized the expenses in research and development expenses on the statement of operations. As of September 30, 2026, the Company recognized $10,834 in accounts payable due to the related party. As of December 31, 2025, the Company recognized $1,800 in accrued expenses due to the related party.

Note 12. Segments

The Company has a single segment and allocates resources based on cash resources and operating expense projections.The table below summarizes the significant expense categories regularly reviewed by the Company's president and chief executive officer, who is the Company's chief operating decision maker ("CODM"), for the three and nine months ended September 30, 2026 and 2025:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2026	2025	2026	2025
Research and development expenses:				
Clinical trial expenses:				
INVINCIBLE-3 Study (Phase 3 Sarcoma)[a]	$ 1,368	$ 883	$ 2,993	$ 3,267
INVINCIBLE-4 Study (Phase 2 Breast)[b]	104	126	273	323
Other clinical trial expenses	—	—	2	14
Clinical trial expenses	1,472	1,009	3,268	3,604
Contract manufacturing	192	30	273	59
Salaries and benefits related	487	303	1,213	925
Consulting and Other[c]	52	29	178	90
Stock-based compensation	226	182	525	605
Research and development expenses	2,429	1,553	5,457	5,283
General and administrative expenses:				
Salaries and benefits related	236	225	826	688
Legal fees	126	130	368	371
Audit fees	77	72	235	237
Consulting	168	145	521	461
Insurance	168	185	507	501
Other[d]	128	134	553	347
Stock-based compensation	291	289	766	944
General and administrative expenses	1,194	1,180	3,776	3,549
Loss from operations	(3,623)	(2,733)	(9,233)	(8,832)
Other segment items[e]	79	62	248	277
Net loss	$ (3,544)	$ (2,671)	$ (8,985)	$ (8,555)

[a] In March 2025, the Company paused new site activations and patient enrollments due to funding constraints. In April 2026, the Company initiated plans to resume enrollment in a limited number of U.S. sites.

[b] In September 2025, the Company paused new patient enrollment to revise the dosing regimen for patients receiving INT230-6. In March 2026, a protocol amendment was approved by the Swissmedic and the Swiss Ethics Committee to use a lower drug volume per tumor volume ratio and a single injection of INT230-6 and the Company has resumed enrollment.

[c] Consulting & Other includes research and development consulting costs and travel-related costs.

[d] Other includes facility expenses, office supplies, computer and software related costs, public relations costs, and travel-related costs.

[e] Other segment items include interest income and foreign exchange gains and losses.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read together with our financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q and in our 2025 Annual Report. Some of the information contained in this discussion and analysis or set forth elsewhere in this Quarterly Report on Form 10-Q, including information with respect to our plans and strategy for our business and financing needs, includes forward-looking statements that involve risks and uncertainties. Such statements should be read together with the "Risk Factors" sections of this Quarterly Report on Form 10-Q and the 2025 Annual Report, which discuss important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis. See "Cautionary Statement Regarding Forward-Looking Statements."

Overview

Intensity Therapeutics, Inc. is a late-stage clinical biotechnology company passionately committed to applying scientific leadership in the field of localized cancer reduction leading to anti-cancer immune activation. Our new approach involves the direct injection into tumors of a unique product created from our DfuseRx^{SM} discovery platform. Our technology makes use of non-covalent conjugation between transporter molecules and potent drug payloads.

Intratumoral ("IT") treatment, or treatment designed to contain a drug inside a tumor without harming the rest of the body, has been an objective of clinicians since discovery of chemotherapeutic agents. The challenge with IT treatment approaches is that a tumor's lipophilic, high fat, dense and pressurized microenvironment is incompatible with and does not absorb water-based products. We believe that this drug delivery challenge limits the effectiveness of prior and current IT treatments, which involve injecting aqueous drugs into a tumor without sufficient consideration of the tumor environment, regardless of the drug's mechanism or approach. Accordingly, there remains a continued unmet need for the development of direct IT therapies for solid tumors that provide high local killing efficacy coupled with nontoxic systemic anti-cancer effects. We believe we have created a product candidate, using our non-covalent conjugation chemistry, with the necessary physical properties to overcome this local delivery challenge. Evidence shows the mechanism of tumor killing achieved by our drug candidate also leads to systemic immune activation and T-cell repertoire expansion in certain cancers.

Our platform creates patented anti-cancer product candidates comprising active anti-cancer agents and amphiphilic molecules. Amphiphilic molecules have two distinct components: one part is soluble in water and the other is soluble in fat or oils. When an amphiphilic compound is mixed with therapeutic agents, such as chemotherapies, the agents also become soluble in both fat and water. Our product candidates include novel formulations consisting of potent anti-cancer drugs mixed together with these amphiphilic agents.

Our lead product candidate, INT230-6, is primarily comprised of three components: (i) cisplatin, a proven anti-cancer cytotoxic agent, (ii) vinblastine sulfate, also a proven anti-cancer cytotoxic agent, and (iii) an amphiphilic molecule ("SHAO") which enables the two cytotoxic agents to disperse through a tumor and diffuse into cancer cells following a direct intratumoral injection. These three components are mixed and combined into one vial at a fixed ratio. Cisplatin and vinblastine sulfate are both available to purchase in bulk supply commercially. The United States Food & Drug Administration ("FDA") has approved both drugs as intravenous agents for several types of cancers. Cisplatin was first approved in 1978 for testicular cancer, and is also approved in ovarian and bladder cancer. The drug is also used widely in several other cancers including pancreatic and bile duct cancer. Vinblastine sulfate was first approved in 1965, and is also approved in generalized Hodgkin's disease, lymphocytic lymphoma, advanced carcinoma of the testis, and certain types of sarcomas. The drug is also used in breast and lung cancer treatments.

Our Clinical Programs

In 2017, we initiated a Phase 1/2 dose escalation study ("IT-01 Study") using INT230-6 in the United States under an investigational new drug application authorized by the FDA and in Canada under a preclinical trial application approved by Health Canada. The study tested the safety and efficacy of INT230-6 in patients with refractory or metastatic cancers, and enrolled 110 patients in three arms: (i) INT230-6 used as a monotherapy, (ii) INT230-6 in combination with Merck's Keytruda® (pembrolizumab), and (iii) INT230-6 in combination with Bristol Myers Squibb's Yervoy® (ipilimumab). We completed enrollment of the IT-01 Study in June 2022, locked the IT-01 Study database in February 2023 and finalized the clinical study report in September 2023.

In 2021, we initiated a Phase 2 randomized study that tested INT230-6 as a monotherapy treatment in early-stage breast cancer for patients not suitable for presurgical chemotherapy (the "INVINCIBLE-2 Study"). The study enrolled 91 subjects and the database was locked in November 2023. The key endpoint was whether INT230-6 could reduce a patient's cancer compared to no treatment or saline injections. Substantial reduction of cancer presurgically in aggressive forms of

cancer has been shown to correlate with delaying disease recurrence. The key endpoints of the INVINCIBLE-2 Study were to understand the percentage of necrosis that can be achieved in tumors of varying sizes for a given dose, especially for tumors larger than 2 centimeters in longest diameter. We also sought to determine whether a local or whole-body anti-cancer immune response could be induced. The INVINCIBLE-2 Study demonstrated a high order of necrosis in presurgical breast cancer tumors in the period from diagnosis to surgery, with some patients experiencing greater than 95% necrosis of the tumor. Data from the INVINCIBLE-2 Study demonstrated that INT230-6 had a favorable safety profile. There was also an increase of certain types of immune cells (CD4+ and NK T-cells) in the tumor and blood. Additionally, there was an increase in the T-cells repertoire relative to control.

In July 2024, we initiated and dosed our first patient in a Phase 3 open-label, randomized study (the "INVINCIBLE-3 Study") testing INT230-6 as a monotherapy compared to the standard of care ("SOC") drugs in second- and third-line treatment for certain soft tissue sarcoma subtypes. This 333-patient study with an endpoint of overall survival has been authorized by the FDA, Health Canada, the European Medicines Agency, and Australia's Therapeutic Goods Administration. In March 2025, we paused new site activations and patient enrollments due to funding constraints. Prior to this pause, the trial had enrolled 21 patients. We have continued to treat all patients enrolled in this study in cooperation with our third-party contract research organizations ("CRO") to reduce ongoing costs during this pause. In April 2026, we initiated activities to resume enrollment in a limited number of U.S. sites in the INVINCIBLE-3 Study using an FDA-reviewed amended protocol based on important learnings from patients enrolled prior to the pause. New patient enrollment activities resumed in the third quarter of 2026. Increased site activation and patient enrollment rates are expected as sufficient incremental funding is obtained.

In October 2024, in collaboration with the Swiss Cancer Institute ("SCI"), formerly the Swiss Cancer Group for Clinical Cancer Research (SAKK), we initiated and dosed our first patient in a Phase 2 study (the "INVINCIBLE-4 Study") to treat patients with localized triple-negative breast cancer. The endpoint is the change in the pathological complete response ("pCR") rate for the combination compared to the SOC alone. In September 2025, we paused new patient enrollment after 14 patients had been enrolled to revise the dosing regimen for patients receiving INT230-6 in Cohort A due to some patients in Cohort A experiencing localized skin irritation near the tumor site. In March 2026, a protocol amendment was approved by Swissmedic and the Swiss Ethics Committee to use a lower drug volume per tumor volume ratio and a single injection of INT230-6. In July 2026, the Company restarted patient treatment and is currently targeting to complete enrollment by the end of 2027, and will likely add resources to help sites enroll new patients. SCI has established an independent data monitory board ("IDMB") comprised of qualified experts to review the safety data and images of these newly treated patients to assess whether the skin irritation issue has been resolved. We plan to provide an update upon completion of IDMB review in the first quarter of 2027. In August 2026, the Company opened its first site in France for accrual following EU submission of the modified protocol. Preliminary data from the first 14 patients (seven in each cohort) showed a 71% pCR in patients receiving INT230-6 in Cohort A and a 42% pCR in patients receiving the SOC alone (Cohort B). There was also a 44% reduction in grade 3 adverse events in Cohort A compared to Cohort B and fewer immune-related adverse events when our INT230-6 was added prior to the immunochemotherapy. In addition, no invasive breast cancer cells were detected in the axillary lymph nodes in 6 of the 7 patients in Cohort A after INT230-6 treatment, despite 5 (71%) of these patients being initially biopsy-proven node-positive. Results also showed tumor necrosis after 1 or 2 injections in all 7 Cohort A patients. In the pre-surgery MRI at the completion of neoadjuvant immuno-chemotherapy, four (57%) patients had RECIST 1.1 radiological complete response and three patients (43%) partial response.

We have also successfully developed Phase 3 quality analytical methods for the three INT230-6 components and successfully manufactured multiple large-scale batches of INT230-6. In a meeting with the FDA in the fourth quarter of 2023, we agreed on a chemistry, manufacturing, and control ("CMC") plan for Phase 3 and product registration for our three key ingredients and INT230-6. If we successfully execute the agreed-upon plan, we expect that the CMC portion of a New Drug Application ("NDA") should be acceptable to the FDA for product approval and registration (subject to final NDA review).

Since our inception in 2012, our operations have included business planning, hiring personnel, raising capital, building our intellectual property portfolio, and performing both research and development on our product candidates. Our research has been selected for oral presentations at major oncology conferences including the American Society of Clinical Oncology ("ASCO"), the Society for Immunotherapy of Cancer ("SITC"), the Connective Tissue Oncology Society ("CTOS") and the San Antonio Breast Cancer Society ("SABCS"). Our research has undergone peer review and been published in high-impact journals such as OncoImmunology (a paper written jointly with the NCI) and The Lancet's journal eBioMedicine. We have incurred net losses since inception and expect to incur net losses in the future as we continue our research and development activities. To date, we have funded our operations primarily through net proceeds received from issuances of our common stock, preferred stock and convertible notes. As of September 30, 2026, we had approximately $8.5 million of cash and cash equivalents. Since our inception, we have incurred significant operating

losses. We incurred net losses of $9.0 million and $8.6 million for the nine months ended September 30, 2026 and 2025, respectively. As of September 30, 2026, we had an accumulated deficit of $87.4 million.

We expect to incur significant expenses and operating losses for the next several years as we continue to:

- Fund our INVINCIBLE-3 and INVINCIBLE-4 clinical studies;
- Incur manufacturing costs for additional Good Manufacturing Practice ("GMP") batches of our product candidates and enhancer molecules;
- Seek regulatory approvals for any of our product candidates that successfully complete clinical trials;
- Hire additional personnel;
- Expand our operational, financial, and management systems;
- Invest in measures to protect our existing and new intellectual property; and
- Establish a sales, marketing, medical affairs, and distribution infrastructure to commercialize any product candidates for which we may obtain marketing approval and intend to commercialize.

Our ability to ultimately generate revenue to achieve profitability will depend heavily on the development, approval, and subsequent commercialization of our product candidates. If we fail to become profitable or are unable to sustain profitability on a continuing basis, then we may be unable to continue our operations at planned levels and be forced to reduce or terminate our operations.

As a result, we will need substantial additional funding to support our continuing operations and pursue our growth strategy. Until such time that we can generate significant revenue from product sales, if ever, we expect to finance our operations through the sale of equity, debt financing, or other capital sources, which may include collaborations with other companies or other strategic transactions. We may not be able to raise additional funds or enter into such other agreements or arrangements when needed on favorable terms, or at all. If we fail to raise capital or enter into such agreements as and when needed, we would have to significantly delay, reduce, or eliminate the development and commercialization of one or more of our product candidates.

Components of Results of Operations

Revenue

To date, we have not generated any revenue from product sales and we do not expect any revenue from the sale of any products in the foreseeable future. We have not generated any revenue from licensing of our technology or product candidates yet either. If our development efforts for any of our product candidates are successful and result in regulatory approval, then we may generate revenue in the future from product sales or licensing. We cannot predict if, when, or to what extent we will generate revenue from the commercialization, licensing or sale of any of our product candidates. We may never succeed in obtaining regulatory approval for any of our product candidates.

Research and Development Expenses

- *Salaries and Benefits Related Costs* include employee-related expenses such as salaries, bonuses and related benefits for employees engaged in research and development functions.
- *Clinical Trial Expenses* include payments to third parties in connection with the clinical development of our product candidates, including CROs, and costs due to clinical trials for patient care.
- *Contract Manufacturing* includes:
    - Manufacturing of products for use in our preclinical studies and clinical trials, including payments to contract manufacturing organizations;
    - Manufacture of new enhancer compounds;
    - Manufacture and labeling of GMP product candidate;
    - Product candidate stability testing of GMP batches; and
    - Other costs such as shipping, storage, and analytical testing.
- *Consulting* costs related to non-employees involved in research, including statistical analysis, clinical trial operations, development of product manufacturing techniques, and internet research related to oncology and chemistry issues that may impact our preclinical or clinical research.
- *Stock-based Compensation* relates to stock options granted to employees and warrants granted to independent consultants engaged in research and development functions.

General and Administrative Expenses

- *Salaries and Benefits Related Costs* include employee-related expenses such as salaries, bonuses and related benefits for employees engaged in fund raising, management, and corporate administration functions.
- *Legal Fees* include expenses for corporate, patent and trademark fees with outside law firms.
- *Audit Fees* consist of fees billed for professional services rendered for the audit of our annual financial statements, review of our interim financial statements, and comfort and consent letters.
- *Consulting* services provided by non-employees for general and administrative tasks, include accounting, tax, human resources, finance, investor relations, board compensation, and information technology support.
- *Insurance* includes directors' and officers' insurance, workers' compensation insurance, product liability insurance, business insurance, employee and cyber liability insurance.
- *Other* includes facility expenses, office supplies, computer related costs, public relations costs, recruiting costs and conferences.
- *Stock-based Compensation* relates to stock options granted to our employees and board members and warrants granted to our independent consultants who work in the general and administrative aspects.

Other income and expenses

We earned interest income on our cash balances.

Results of Operations

The following tables summarize our results of operations for the three and nine months ended September 30, 2026 and 2025 (in thousands):

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2026	2025	Change	2026	2025	Change
Operating expenses:						
Research and development	$ 2,429	$ 1,553	$ 876	$ 5,457	$ 5,283	$ 174

Three Months Ended September 30, 2026 Compared to Three Months Ended September 30, 2025

Research and development expenses during the three months ended September 30, 2026 increased $0.9 million or 56%, compared to the three months ended September 30, 2025, and were primarily due to the following:

- INVINCIBLE-3 Study costs increased $0.5 million. In March 2025, we paused new site activations and patient enrollments in the INVINCIBLE-3 Study due to funding constraints. During the third quarter of 2026, we resumed new patient enrollment activities in the INVINCIBLE-3 Study in a limited number of U.S. sites, and have prioritized commencing full patient enrollment and site activations once sufficient incremental funding is obtained.
- Contract manufacturing costs increased due to the initiation of new INT230-6 manufacturing batch during the three months ended September 30, 2026 compared to no manufacturing runs during the three months ended September 30, 2025.

- Salaries and benefits related costs increased due to an estimated bonus accrual during the three months ended September 30, 2026 compared to no estimated accrual during the three months ended September 30, 2025.
- Stock-based compensation increased due to new annual stock-based compensation awards granted, including to a new employee, during the three months ended September 30, 2026 compared to no stock-based compensation awards granted during the three months ended September 30, 2025.

General and administrative expenses during the three months ended September 30, 2026 increased by $0.01 million or 1%, compared to the three months ended September 30, 2025, and were primarily due to the following:

- Salaries and benefits related costs increased due to an estimated bonus accrual during the three months ended September 30, 2026 compared to no estimated accrual during the three months ended September 30, 2025.
- Other expenses increased during the three months ended September 30, 2026 compared to the three months ended September 30, 2025 due to higher Delaware franchise costs related to our Reverse Stock Split in February 2026.
- Stock-based compensation increased slightly due to new annual stock-based compensation awards granted during the three months ended September 30, 2026 compared to the three months ended September 30, 2025 as no stock-based compensation awards were granted during the three months ended September 30, 2025.

Interest income in 2026 and 2025 related to interest earned on cash.

Nine Months Ended September 30, 2026 Compared to Nine Months Ended September 30, 2025

Research and development expenses during the nine months ended September 30, 2026 increased $0.2 million or 3%, compared to the nine months ended September 30, 2025, and were primarily due to the following:

- INVINCIBLE-3 Study costs decreased $0.3 million. In March 2025, we paused new site activations and patient enrollments in the INVINCIBLE-3 Study due to funding constraints. Prior to this pause, the trial had enrolled 21 patients. We have continued to treat all patients enrolled in this study in cooperation with our third-party CROs during this pause. In April 2026, we initiated plans to resume enrollment in the INVINCIBLE-3 Study in a limited number of U.S. sites, and new patient enrollment activities resumed in the third quarter of 2026. Submission of documentation necessary for restarting in the EU is in process. Increased site activation and patient enrollment rates are expected as sufficient incremental funding is obtained.
- Contract manufacturing costs increased due to the initiation of new INT230-6 manufacturing batch during the nine months ended September 30, 2026 compared to no manufacturing runs during the nine months ended September 30, 2025.
- Salaries and benefits related costs increased due to an estimated bonus accrual during the nine months ended September 30, 2026 compared to no estimated accrual during the nine months ended September 30, 2025.
- For the nine months ended September 30, 2026, stock-based compensation was lower than the comparable period in 2025, driven by the 2026 annual awards being issued one quarter later than the 2025 annual awards, thereby shifting the associated expense.

General and administrative expenses during the nine months ended September 30, 2026 increased by $0.2 million or 6%, compared to the nine months ended September 30, 2025, and were primarily due to the following:

- Salaries and benefits related costs increased due to an estimated bonus accrual during the nine months ended September 30, 2026 compared to no estimated accrual during the nine months ended September 30, 2025.
- Other expenses increased during the nine months ended September 30, 2026 compared to the nine months ended September 30, 2025 due to higher Delaware franchise costs related to our Reverse Stock Split in February 2026.
- For the nine months ended September 30, 2026, stock-based compensation was lower than the comparable period in 2025, driven by the 2026 annual awards being issued one quarter later than the 2025 annual awards, thereby shifting the associated expense.

Interest income in 2026 and 2025 related to interest earned on cash.

Liquidity and Capital Resources

Our financial statements have been prepared assuming we will continue as a going concern. We have incurred losses from operations and negative cash flows from operations that raise substantial doubt about our ability to continue as a going concern.

We have financed our operations primarily through an initial investment from our founder, the issuance and sale of convertible debt notes, and private and public equity financings. Since our inception, we have not generated any revenue from product sales and have incurred significant operating losses. We expect to continue to incur significant expenses and operating losses for the foreseeable future as we advance the clinical development of our product candidates. We expect that our research and development and general and administrative costs will continue to increase significantly, including in connection with conducting clinical trials for our product candidates, developing our manufacturing capabilities and building and qualifying our manufacturing facility to support clinical trials and commercialization and providing general and administrative support for our operations, including the cost associated with operating as a public company. As a result, we will need additional capital to fund our operations, which we may obtain from additional equity or debt financings, collaborations, licensing arrangements or other sources. The sale of equity and convertible debt securities may result in dilution to our stockholders. Additional capital may not be available on reasonable terms, or at all. If we are unable to raise capital when needed or on attractive terms, we could be forced to delay, scale back or discontinue the development of our product candidates.

On March 23, 2026, we filed a prospectus supplement to adjust the maximum that we may sell and issue under the Sales Agreement to $60.0 million of our shares of common stock, not including the shares previously sold under the Sales Agreement. Since inception through September 30, 2026, we have issued 2,009,329 shares of common stock under the Sales Agreement for net proceeds of $14.5 million. As of September 30, 2026, we may issue and sell up to $56.9 million of Shares remaining under the Sales Agreement.

On October 30, 2025, we entered into a Securities Purchase Agreement with an institutional investor, pursuant to which we agreed to issue and sell, in a registered direct offering by us directly to the investor 200,000 shares of common stock at a price of $20.00 per share, for aggregate gross proceeds of $4.0 million before deducting the placement agent's fees and related offering expenses.

On June 11, 2025, we entered into an underwriting agreement (the "Underwriting Agreement") with ThinkEquity LLC (the "Underwriter") relating to the issuance and sale of an aggregate of 267,000 shares (the "Firm Shares") of our common stock to the Underwriter at a price to the public of $7.50 per share (the "June 2025 Offering"). Pursuant to the terms of the Underwriting Agreement, we granted to the Underwriter a 45-day option to purchase up to an additional 40,050 shares of common stock in the June 2025 Offering (the "Option Shares" and together with the Firm Shares, the "Shares"). The Underwriter exercised its option in full to purchase the 40,050 Option Shares at the public offering price on June 12, 2025. The June 2025 Offering, including the exercise of the Underwriter's over-allotment option, closed on June 13, 2025. All of the Shares were sold by us. Pursuant to the Underwriting Agreement, we also agreed to issue to the Underwriter and/or its designees warrants to purchase up to 15,352 shares of common stock (the "Representative's Warrants"), which equals 5% of the Shares purchased in the June 2025 Offering, such warrants to be exercisable as set forth in the Representative's Warrant Agreement. The net proceeds from the June 2025 Offering, including the exercise of the Underwriter's over-allotment option, were approximately $1.8 million after deducting the underwriting discounts and commissions and estimated offering expenses payable by us.

On April 24, 2025, we commenced a best efforts public offering (the "April 2025 Offering") of an aggregate of (i) 125,333 shares (the "Shares") of our common stock, (ii) 125,333 Series B-1 Common Warrants (the "Series B-1 Common Warrants") to purchase up to 125,333 shares of common stock (the "Series B-1 Common Warrant Shares"), and (iii) 125,333 Series B-2 Common Warrants (the "Series B-2 Common Warrants" and together with the Series B-1 Common Warrants, the "Warrants") to purchase up to 125,333 shares of common stock (the "Series B-2 Common Warrant Shares" and together with the Series B-1 Common Warrant Shares, the "Warrant Shares"). In connection with the April 2025 Offering, we entered into a Securities Purchase Agreement on April 24, 2025 with certain institutional investors participating in the April 2025 Offering. The April 2025 Offering closed on April 28, 2025. Each Share was sold together with one Series B-1 Common Warrant to purchase one share of common stock and one Series B-2 Common Warrant to purchase one share of common stock. The combined offering price for each Share and accompanying Warrants was $18.75. Each Warrant has an exercise price of $21.25 and was immediately exercisable upon issuance. The Series B-1 Common Warrants will expire on the five-year anniversary of the date of issuance, and the Series B-2 Common Warrants will expire on the eighteen-month anniversary of the date of issuance. We raised an aggregate of $2.35 million in the April 2025 Offering, and net proceeds of the April 2025 Offering, after deducting the fees and expenses were approximately $1.9 million.

As of September 30, 2026, our cash and cash equivalents were approximately $8.5 million. Based on our balances in cash and cash equivalents, our ability to continue our operations is dependent on obtaining additional capital, which is not within our control. As a result, we believe there is substantial doubt about our ability to continue as a going concern.

The following table summarizes the net cash provided by (used in) operating activities and financing activities for the periods indicated (in thousands):

	Nine Months Ended September 30,	
	2026	2025
Net cash used in operating activities	$ (6,666)	$ (6,832)
Net cash provided by investing activities	—	—
Net cash provided by financing activities	3,239	11,309
Net (decrease) increase in cash and cash equivalents	$ (3,427)	$ 4,477

Operating Activities

Our cash used in operating activities for the nine months ended September 30, 2026 was $6.7 million, comprising of (i) our net loss of $9.0 million, as adjusted for $1.3 million in non-cash expenses (primarily for non-cash stock based compensation of $1.3 million), and (ii) net changes in operating assets and liabilities of $1.0 million.

Our cash used in operating activities for the nine months ended September 30, 2025 was $6.8 million, comprising of (i) our net loss of $8.6 million, as adjusted for $1.6 million in non-cash expenses (primarily for non-cash stock based compensation of $1.6 million), and (ii) net changes in operating assets and liabilities of $0.2 million.

Investing Activities

There were no investing activities during the nine months ended September 30, 2026 or September 30, 2025.

Financing Activities

Our cash provided by financing activities during the nine months ended September 30, 2026 was $3.2 million, comprised primarily from net proceeds received from the issuance of common stock under the Sales Agreement.

Our cash provided by financing activities during the nine months ended September 30, 2025 was $11.3 million, primarily comprising of (i) $1.9 million in net proceeds received from the issuance of common stock and warrants in the April 2025 Offering, (ii) $1.8 million in net proceeds received from the issuance of common stock in the June 2025 Offering, and (iii) $7.6 million in net proceeds received from the issuance of common stock under the Sales Agreement.

Off-Balance Sheet Arrangements

We did not have any off-balance sheet arrangements as of September 30, 2026.

Critical Accounting Policies and Estimates

Critical accounting estimates are those policies which are both important to the presentation of a company's financial condition and results and require management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. For a further discussion of our critical accounting estimates, see our 2025 Annual Report. No significant changes to our accounting policies took place during the nine months ended September 30, 2026.

JOBS Act Accounting Election

We are an "emerging growth company," as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. Under the JOBS Act, emerging growth companies can delay adopting new or revised accounting standards issued subsequent to the enactment of the JOBS Act until such time as those standards apply to private companies. We have elected to use the extended transition period for new or revised accounting standards during the period in which we remain an emerging growth company; however, we may adopt certain new or revised accounting standards early.

Subject to certain conditions set forth in the JOBS Act, if, as an "emerging growth company", we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor's attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our IPO or until we are no longer an "emerging growth company," whichever is earlier.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that the information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and such information is accumulated and communicated to management, including the Chief Executive Officer, Chief Financial Officer, and Principal Accounting Officer, to allow timely decisions regarding required disclosure. Disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable assurances of achieving the desired controls.

As of September 30, 2026, we carried out an evaluation over the effectiveness of the design and operation of our disclosure controls and procedures defined above. Based upon that evaluation, our Chief Executive Officer, Chief Financial Officer, and Principal Accounting Officer have concluded that, as of September 30, 2026, our disclosure controls and procedures were effective at a reasonable assurance level.

Limitations on the Effectiveness of Controls

Our management recognizes that any set of controls and procedures, no matter how well-designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, with us have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of controls. For these reasons, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended September 30, 2026 covered by this report that have materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II - Other Information

Item 1. Legal Proceedings

From time to time, we are made aware of legal allegations arising in the ordinary course of our business. We are not currently a party to any actions, claims, suits or other legal proceedings the outcome of which, if determined adversely to us, would individually or taken together have a material adverse effect on our business, operating results, cash flows or financial condition.

Item 1A. Risk Factors

Our business is subject to risks and events that, if they occur, could adversely affect our financial condition and results of operations and the trading price of our securities. Our risk factors have not changed materially from those described in "Part I, Item 1A. Risk Factors" of our 2025 Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the quarter ended September 30, 2026, there were no unregistered sales of our securities that were not reported in a Current Report on Form 8-K.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

During the three months ended September 30, 2026, none of our directors or officersadopted, modified or terminated a “Rule 10b5-1 trading arrangement” or “non-Rule 10b5-1 trading arrangement,” as each term is defined in Item 408(a) of Regulation S-K.

Item 6. Exhibits

Exhibit No.	Description
3.1	Sixth Amended and Restated Certificate of Incorporation of the Registrant, dated June 30, 2023 (incorporated by reference to Exhibit 3.1 of our Form 8-K filed on July 5, 2023).
3.2	Certificate of Amendment of Amended and Restated Certificate of Incorporation (incorporated by reference to Exhibit 3.1 of our Form 8-K filed on February 13, 2026).
3.3	Second Amended and Restated Bylaws, dated November 21, 2023 (incorporated by reference to Exhibit 3.1 of our Form 8-K filed on November 22, 2023).
3.4	Amendment to the Amended and Restated Bylaws, certified as of August 12, 2025 (incorporated by reference to Exhibit 3.1 of our Form 8-K filed on August 12, 2025).

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, as amended, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized**.**

Intensity Therapeutics, Inc.

Date: November 5, 2026 By: /s/ Lewis H. Bender

Lewis H. Bender
President, Chief Executive Officer and Chairman

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, this Report has been signed below by the following persons on behalf of the Registrant in the capacities and on the dates indicated.

Name	Title	Date
/s/ Lewis H. Bender **Lewis H. Bender**	President, Chief Executive Officer and Chairman (principal executive officer)	November 5, 2026
/s/ Joseph Talamo **Joseph Talamo**	Chief Financial Officer (principal financial officer)	November 5, 2026

Exhibit 31.1

CERTIFICATION PURSUANT TO
RULES 13a-14(a) AND 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Lewis H. Bender, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Intensity Therapeutics, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
    a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
    b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
    c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
    d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
    a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
    b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 32.1

CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350, AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Intensity Therapeutics, Inc. (the "Company") on Form 10-Q for the period ended September 30, 2026 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

1. The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of the Company.
